

EZUGWU EMMANUEL CHIBUZOR

Full-Stack Software Engineer

+234 806 190 9461 <https://github.com/emmanuelfred> emmanuelfredrick66@gmail.com

ABOUT ME

Backend-focused Full-Stack Software Engineer with 5+ years of experience building scalable web and mobile applications. Skilled in designing RESTful APIs, optimizing database performance, and developing production-ready systems using Django, Node.js, and modern JavaScript frameworks. Strong understanding of software architecture, Agile development, and secure coding practices (OWASP principles). Proven ability to collaborate in team environments, mentor developers, and deliver high-quality solutions.

CORE TECHNICAL SKILLS

Languages: JavaScript, Python, PHP, Java, Kotlin

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Django, Node.js, NestJS (Basic), REST API Development

Mobile: React Native, Kotlin, Kotlin Multiplatform (Intermediate)

Databases: PostgreSQL, MongoDB, MySQL

Tools & DevOps: Git (Gitflow), GitHub, AWS

Concepts: Data Structures & Algorithms, Microservices, API Design, Authentication (JWT), Software Testing & Debugging, Agile/Scrum, OWASP Security Practices

WORK EXPERIENCE

Full-Stack Developer / team lead

Edenites Technologies

July 2024 – Present

- Developed and maintained responsive web and mobile-friendly applications.
- Worked with React, Django, Node.js, and React Native on client and internal projects.
- Collaborated with cross-functional teams to design, implement, and optimize features.
- Taught Python, Web Development, and App Development to students.
- Created YouTube tutorials and technical learning materials.
- Led development of scalable web and mobile applications using React, Django, Node.js, and React Native
- Designed and implemented REST APIs consumed by web and mobile clients
- Optimized database queries and improved application performance
- Conducted code reviews and mentored junior developers and students
- Collaborated with cross-functional teams to design and deliver new features
- Developed technical training materials and taught Python, web, and mobile development

Website & Digital Media Manager / Developer

Child Image-Building Foundation

January 2024 – 2025

Maintained and optimized organizational website for performance and usability

Implemented UI/UX improvements and ensured mobile responsiveness

Managed digital platforms and analyzed engagement metrics

Supported campaigns through technical and design contributions

Junior Web Developer

Star Power Technologies

February 2023 – September 2023

- Assisted in developing and maintaining web applications
- Fixed bugs and participated in testing and debugging processes
- Collaborated with senior developers on feature implementation
- Gained hands-on experience with full-stack development workflows

Kinsmen ICT Solutions

2021 – 2023

- Supported website development and maintenance tasks
- Learned and applied modern responsive web development practices
- Assisted in implementing features and resolving technical issues

PROJECTS / PORTFOLIO

Academy Guide

Built a full-stack education platform using React ,React Native and Node.js

Implemented authentication, course management, and scalable backend services

<http://academyguide.org/>

Edenites Academy

Built a full-stack education platform using React ,React Native and Node.js

Implemented authentication, course management, and scalable backend services

<https://edenitesacademy.com/>

247 Nigeria

Developed a full-stack platform with React (frontend) and Django (backend)

Designed REST APIs and integrated frontend with backend services

<https://247agencies.com/>

GuardianX

Built a cross-platform application using Kotlin Multiplatform and Ktor backend

Implemented scalable architecture and API-driven communication

Repository: <https://github.com/emmanuelfred/GuardianX>

Additional Information

- 5+ years experience building production web applications
- Strong interest in distributed backend systems and Golang services
- Experience working in startup environments
- Passionate about building scalable systems that solve real-world problems
- Comfortable working remotely and collaborating with global teams
